ANIMATION

Do you have a great idea for a spooky story or a ghostly tale? Then why not come to elearning@luton and make your stories come to life. During the day you will get the opportunity to use the cutting edge computer animation software 'iClone 3' to create characters and scenes for your movie and then animate them to fit your ideas. You can then use Apple Macs to bring all of your scenes together with sound effects and music to make a final movie.

COURSE DATES

17th July 2010
5th March 2011

9th October 2010

All courses will run from
9:30am till 4pm

Cost: £30 per person
